To whom this may concern,

I would like to apply for an entry level cosmetologist position at your salon. After researching your company I'm enthusiastic about becoming part of your team. My resume is enclosed for your convenience.

Turning ladies into bombshells and gentlemen into GQs is my forte. With a knack for esthetics and endless desire to grow professionally I feel that I will be an asset to your team. In school I excelled at haircutting and was creative with my color use. I also have a love for cosmetic application and wish to further my education in that area. Giving the right environment I feel that I will flourish in this field.

I look forward to interviewing with you!

Enthusiastically,

Leslie Capuano
